# vertex

**3D COLLABORATION FOR EVERYONE**

# DO YOU WANT MORE FROM YOUR CAD & PLM INVESTMENTS?

The sheer size and sensitive nature of CAD data, the cost of 3D hardware and software, and the number of data formats and software systems have made it nearly impossible to use 3D product data beyond engineering.

Now, Vertex makes it possible to engage your customers, employees, suppliers, and partners with 3D data wherever they are on whatever devices they use.

We extend the reach of your 3D data to reduce supply chain bottlenecks, accelerate time-to-market, and increase sales.

**IMPROVE DECISION MAKING AND EXECUTION** Make it easy for your customers, employees, and partners to share ideas with 3D data to drive more effective enterprise collaboration.
**EXTEND THE REACH OF 3D** Realize the full potential of your 3D CAD and PLM investment by enabling instant access to 3D data anywhere on any device.

**SAVE TIME & MONEY** Speed up 3D collaborative workflows and recover more than 80% of your time translating, formatting, sharing, and collecting design information. Reduce hardware and software costs by 50%.

# UNLEASH THE FULL POTENTIAL OF YOUR 3D PRODUCT DATA

Sales & customer engagement
Customer installation testing and validation

Product design reviews

Factory digital work instructions and quality reporting

Service manuals and parts catalogs

Supplier RFQs

**"It cuts down any problems, issues, or confusions in the initial purchasing with us taking ownership of the truck. Vertex helps us get exactly what we want when they deliver the truck."**

**– Terex Customer**

**"It has helped me sell more trucks. Vertex improves the quality of the sales process and improves the quality of the final product."**

**– Lucas Thompson**, Territory Sales Manager, Terex

# WHAT MAKES US DIFFERENT

**ZERO INSTALL** We deliver a revolutionary zero-install, cloud-based approach to industrial 3D visualization that supports scale of use and quality never before thought possible.

**DEVICE AGNOSTIC** We are ideal for broadly distributed 3D solutions for mobile and low-power devices common to supply chain, sales, service, and factory workflows in multi-CAD and multi-PLM organizations

**MASSIVE MODELS** We enable fully-interactive visualization of large 3D models that are otherwise impossible to view even on today's most powerful computers. With Vertex, you can instantly view CAD or BIM data for full products and entire factories.

**COMBINE DATA WITH EASE** We make direct integration with manufacturing data systems easy. Eliminate cumbersome data translation workflows required for 3D solutions. Merge data from multiple CAD, BIM, and PLM systems without intermediary files and storage systems and associate metadata from any source.

**QUICK TIME-TO-VALUE** We provide turnkey web-based software and developer tools that make sharing 3D data and embedding 3D content in software applications fast and easy.

**NO FILES** We stream pixels, not part files, ensuring your IP is always under your control and protected from incidental disclosure.

> **"One of the values Vertex provides is their partnership. They excel at the Customer Service and Support. They have an eagerness to listen and continuously improve…"**
>
> **– Ethan Roth,** Project Engineer, Hose & Harness Routing, Vermeer

# ABOUT US

At Vertex Software, we believe 3D visualization is the premier communication medium for the future of human innovation. We strive every day to accelerate global innovation, discovery, and idea exchange. Our solutions drive customer satisfaction, grow market share, engage suppliers and partners, and energize employees.
